

**فلاي لكيماويات البناء**

Construction Chemicals

## Company profile

Fly construction chemicals is a leading company established 2022, then it completely acquired millennium Egypt company included the founded factory in 2011, all products and stuff

The factory located near to 10<sup>th</sup> of Ramadan city. The factory consists of two powder production lines and a liquid production line with production capacity 60K ton yearly

Fly developed new products to keep up with the demand in different markets

Fly offer high quality products with affordable price and give new solutions to save time and improve quality and projects value

# CERTIFICATE

**Fly Construction Chemicals**  
Factory No. 91, Second Manufacturing Zoon Belbies,  
Al Sharkia, EGYPT

Accent Technical Services confirms that the management system has been assessed and registered as complying with the requirements of the International Standard

## Quality Management System **ISO 9001:2015**

IAF Code:35

For the following scope

### **Building Materials Manufactory**

This certificate is valid until the expiry date shown below on the condition that audits are conducted periodically as planned. Should this condition not be met, cancellation procedures will be initiated, and the status will be revealed when the QR Code is scanned. The status and validity of this certificate maybe verified in real time by scanning the adjacent QR Code.

Original Issue Date: 19 Oct. 2020  
Current Issue Date: 9 Jan. 2023  
Expiry Date: 19 Oct. 2023  
Period Finish Date: 19 Oct. 2023

## Technical datasheet

### Taneem Skim Cover

---

#### Colored decorative render

High quality cement based ready mixed colored decorative render give Graviatto finish.

#### Product description

High quality cement based ready mixed colored decorative render give Graviatto finish. Weather resistance, stable color, require water addition on site

#### Standers

Skim cover is formulated to comply with Din 998 standers

#### Product characteristics

- ✓ Exact mixing ratio and homogeneity of the mixture
- ✓ Excellent mixing and workability
- ✓ Easy to use and apply
- ✓ Row material are selected according to the highest quality control standers
- ✓ Excellent bonding characteristic to different construction material
- ✓ Excellent sag and water resistance
- ✓ Long open and workable time
- ✓ Available in wide range of uniform colors
- ✓ Give modern decorative finishing style
- ✓ Very high productive rate
- ✓ Breathable
- ✓ Excellent resistance to extreme weather condition

#### Application

- Just add powder to water gradually then mixed together manually or with hand drill (recommended) till reach a homogenous mixture.
- For best result use as little water as you can and continue mixing while powder adding for 5 minutes to ensure proper mixing
- Applied with hand application technique
- Cement based walls should be lift to cure at least 14 day before applying skim cover
- Never cure with water or any curing compound as this may affect the color
- Porous surfaces such as plaster board should be sealed before application
- Don't apply on metal surfaces

Construction Chemicals

#### Technical data

Base	Portland cement, special additive, selected polymers
Coverage	Approx 3-5 KG/m <sup>2</sup>
Mixing ratio	40% water to powder weight
Available color	Wide range of colors
Plot life	About 30 Mint @ 25 C
Bond strength	More than 1.5 N/mm <sup>2</sup>

#### Packaging

Skim cover is available in 50 Kg bags

#### Storage

Shelf life is 12 months from production date in a dry and covered storage area
